

## Craig Alan Stow

NOAA Great Lakes Environmental Research Laboratory  
4840 South State Road, Ann Arbor, MI 48108  
734-741-2268, craig.stow@noaa.gov

---

### *Education*

- Ph.D. December 1992** - School of the Environment, Duke University, Durham, NC  
Faculty Advisor: Dr. Kenneth H. Reckhow  
Dissertation: The Effect of Errors-in-Variables on Parameter Estimation in a Lake Phosphorus Model.
- M.S. May 1981** - Wetland Biogeochemistry Institute, Louisiana State University, Baton Rouge, LA  
Faculty Advisor: Dr. William H. Patrick, Jr. Major: Marine Sciences  
Masters Thesis: Seasonal nutrient dynamics in a shallow sub-tropical hypereutrophic lake in south Louisiana.
- B.S. May 1977** Cornell University, Ithaca, NY.  
Major: Environmental Technology

### *Professional Experience*

- Senior Research Scientist**, NOAA Great Lakes Environmental Research Laboratory Ann Arbor, MI. July 2006-present.
- Associate Professor**, University of South Carolina, Arnold School of Public Health, Department of Environmental Health Sciences, Columbia, SC. August 2003- June 2006.  
Courses Taught – Applied Aquatic Sciences (Fall 03, 04, 05), Ecological Modeling and Environmental Planning (Spring 05, 06).
- Visiting Assistant Professor**, Aquatic Sciences, Duke University, Nicholas School of the Environment and Earth Sciences, Durham, NC. August 1996 – July 2003.  
Courses Taught - Water Quality Management (Fall 96-02), Water Quality Field and Laboratory Skills (Spring 97-03), Seminar on “The Ecological Detective” by Hilborn and Mangel (Fall 98), Advanced Readings (Spring 01).  
Teacher of the Year – 2002-03 academic year.  
Teacher of the Year – 2001-02 academic year.  
Administrative Responsibilities - Chair, Water and Air Resources Program, 1997-2003.
- Post-Doctoral Researcher**, University of Wisconsin, Center for Limnology, Madison, WI. July 1992 - August 1996.
- Graduate Research and Teaching Assistant**, Duke University, School of the Environment, Durham, NC. August 1986 - July 1992.
- Environmental Program Specialist**, Louisiana Department of Environmental Quality, Baton Rouge, LA. NPDES permit writer. February 1982 - July 1986.
- Research Associate**, Laboratory for Wetland Soils and Sediments, Louisiana State University, Baton Rouge, LA. November 1981 - January 1982.
- Analytical Chemist**, Analytical and Environmental Testing, Baton Rouge, LA. January 1981 – November 1981.
- Graduate Research Assistant**, Laboratory for Wetland Soils and Sediments, Louisiana State University, Baton Rouge, LA. August 1978 - December 1980.

## ***Professional Memberships***

American Association for the Advancement of Science, International Association for Great Lakes Research

## ***Publications***

### *Conference Presentations*

- A Bayesian approach to guide development and evaluation of substance objectives under the 2012 Great Lakes Water Quality Agreement. May 2014. Hamilton, Ontario.
- Spatial and temporal patterns in Saginaw Bay water quality. International Association for Great Lakes Research. June 2013. West Lafayette, IN.
- Science to management: Experiences in the Great Lakes. American Society for Limnology and Oceanography. February 2013. New Orleans, LA.
- Rapid summertime oxygen depletion in Saginaw Bay. International Association for Great Lakes Research. May 2012. Cornwall, Ontario.
- Managing multiple stressors: the saga of Saginaw Bay. Coastal and Estuarine Research Federation. November 2011. Daytona Beach, FL.
- Dreissenid mussel influences on phosphorus export from Saginaw Bay to Lake Huron. International Association for Great Lakes Research. May 2011. Duluth, MN.
- Tropical storm influence on nitrous oxide emissions from the Gulf of Mexico hypoxic zone. Ecological Society of America. August 2010. Pittsburgh, PA.
- Evaluating and forecasting Lake Superior water level fluctuations using dynamic linear models. International Association for Great Lakes Research. May 2010. Toronto, ON.
- Insights into the benthic algal community in Saginaw Bay, Lake Huron. State of Lake Michigan Conference. September 2009. Milwaukee, WI.
- The Saginaw Bay Multiple Stressors Project. International Association for Great Lakes Research. May 2009. Toledo, OH.
- The rise and fall of the Great Lakes water levels. EPA SWIMS Conference. February 2009. Chicago, IL.
- The ups and downs of Great Lakes water levels. EPA Tribal Climate Change Conference. December 2008. Milwaukee, WI.
- Analysis of water level changes in lakes Michigan and Huron. International Association for Great Lakes Research. May 2008. Peterborough, Ontario.
- Bayesian ensemble estimation in a Chesapeake Bay hypoxia model. Estuarine Research Federation. November 2007. Providence, RI.
- The confounding effect of river discharge on estuarine response to nutrient loading. Ecological Impacts of Hypoxia on Living Resources. March 2007. Bay St. Louis, MS.
- Modeling hypoxia in the Chesapeake Bay: Ensemble estimation using a Bayesian hierarchical model. Skill Assessment for Coupled Biological/Physical Models of Marine Systems. March 2007. Chapel Hill, NC.
- Bayesian hierarchical/multi-level modeling approaches for large-scale ecological inference. Ecological Society of America. Memphis, TN. August 2006. Invited presentation.
- Hypoxia: A declining threshold. Ecological Society of America. Montreal, Quebec, CA. August 2005.
- A probability network of eutrophication models for the Neuse River estuary. Ecological Society of America. Savannah, Georgia. August 2003.

Nitrogen TMDL development for the Neuse River, North Carolina. American Water Resources Association. Snowbird, Utah. June 2001.

Nutrient reduction in the Neuse River watershed: A case for adaptive management. North Carolina Water Resources Research Conference. Raleigh, NC. March 2001.

Is classical inference an appropriate framework to evaluate the textural discontinuity hypothesis? International Association of Landscape Ecology. Ft. Lauderdale, Florida. April 2000.

Recent historical nutrient loading in the Neuse River. North Carolina Water Resources Research Conference. Raleigh, NC. March 1999.

Recent historical nutrient changes in the Neuse River Estuary, North Carolina. American Society of Limnology and Oceanography/Ecological Society of America. St. Louis, Missouri. June 1998.

Does lipid concentration determine contaminant levels in Lake Michigan fishes? International Association for Great Lakes Research. Toronto, Ontario. May 1996.

Herring gull eggs indicate stabilizing Great Lakes PCB concentrations. Society of Environmental Toxicology and Chemistry. Vancouver, British Columbia. November 1995.

Empirical relationships to estimate the probability of summer blue-green algae blooms from spring total phosphorus levels. Ecological Society of America. Snowbird, Utah. August 1995.

Reducing human contaminant exposure from Lake Michigan fish consumption: Can Fisheries Management Play a Role? International Association for Great Lakes Research. East Lansing, MI. June 1995.

Do PCB concentration trends in Lake Michigan fishes reflect local or global patterns? Society of Environmental Toxicology and Chemistry. Denver, CO. October 1994.

PCB concentration trends in Lake Michigan fishes. American Fisheries Society. Halifax, Nova Scotia. August 1994.

Will PCB concentrations in Lake Michigan fishes undergo further declines? International Association for Great Lakes Research. Windsor, Ontario. June 1994.

Exploration of the variability of PCB accumulation in Lake Michigan salmon, using individual-based models. Ecological Society of America. Madison, WI. August 1993.

Comparisons of PCB Accumulation Dynamics in Great Lakes Salmonids. International Association for Great Lakes Research. Green Bay, WI. June 1993.

The Use of Individual Based Models to Investigate PCB Dynamics in Lake Michigan. Wisconsin Chapter of the American Fisheries Society. Stevens Point, WI. January 1993.

The Effect of Errors-in-Variables on Parameter Estimation and Prediction Uncertainty in a Lake Phosphorus Model. 3rd International Environmetrics Conference, Madison, WI. October 1991.

### ***Sessions Chaired***

The Impacts of Environmental Stressors on the Saginaw Bay Ecosystem. International Association for Great Lakes Research. June 2013. With N. Hawley, C. Roswell, and T. Hook. West Lafayette, IN.

Managing Multiple Stressors in Coastal Ecosystems. Coastal and Estuarine Research Federation. November 2011. With E. Turner, L. Pugh, and M. Dowgiallo. Daytona Beach, FL.

Recent Impacts of Invasive Species on the Great Lakes Ecosystem. International Association for Great Lakes Research. With G. Fahnensteil and H. Vanderploeg. Duluth, MN.  
The Continuing Impact of Multiple Stressors on Saginaw Bay. International Association for Great Lakes Research. with J. Bressie and J. DePinto. May 2009. Toledo, OH.  
Pattern and Process in Material Cycling in Large Lakes. International Association for Great Lakes Research. with L. J. Jackson and D. Haffner. June 1997. Buffalo, NY.

### ***Professional Activities***

Great Lakes Net Pen Aquaculture Science Panel, 2015.  
Editorial Board – Journal of Great Lakes Research, June 2014 – present.  
Great Lakes Water Quality Agreement Annex 2 Lake Ecosystems Objectives Task Team, 2014 – present.  
Great Lakes Water Quality Agreement Annex 4 Subcommittee, 2013 – present.  
International Joint Commission. Lake Erie Ecosystem Priority Science Synthesis Workshop 2012. Windsor, Ontario.  
Editorial Board –Ecosystems, March 2012 – present.  
Editorial Board – Advances in Water Resources, March 2012 – present.  
Managing for Resilience. Working Group. John Wesley Powell Center for Earth System Science Analysis and Synthesis. 2012-2014. Ft. Collins, CO.  
International Joint Commission Workshop on Great Lakes Reeutrophication. February 17-18, 2009. Windsor, Ontario.  
Ecological Impacts of Hypoxia on Living Resources. March 26-29, 2007. Bay St. Louis, MS.  
Skill Assessment for Coupled Biological/Physical Models of Marine Systems. March 6-8, 2007. Chapel Hill, NC.  
Workshop on Resilience and Discontinuities in Complex Systems. October 15-21, 2006. Stockholm, Sweden.  
Hypoxia in the Gulf of Mexico, Assessing the State of the Science. Invited Panelist. April 25-28, 2006. New Orleans, LA.  
USEPA Oceanography and Coastal Processes STAR Fellowship Review Panel. March 13-14, 2006. Washington, DC.  
USEPA Aquatic Systems Ecology STAR Fellowship Review Panel. March 8-9, 2006. Washington, D.C.  
Advances in Macroecological Methods – The Analysis of Body Mass Patterns and Their Landscape Ecological Relevance. Umea, Sweden. October 27-29, 2005.  
National Science Foundation National Dissemination Workshop. New Approaches and Techniques for Teaching Science: Addressing Environmental Problems to Stimulate Undergraduate Learning. Rochester Institute of Technology. Rochester, NY. July 29-August 2, 2005.  
Adaptive Implementation of TMDLs: Interpretation and Applications. Working Group. October, 2004 October, 2006. Duke University, Durham, NC.

Water Quality Program Review. USEPA National Exposure Research Laboratory. August 31-September 2, 2004. Cincinnati, Ohio.

Environmental Health Conference. Environmental and Occupational Health Council of the Association of Schools of Public Health. July 11-13, 2004. Minneapolis, MN.

USEPA Aquatic Systems Ecology STAR Fellowship Review Panel. February 19-20, 2004. Washington, DC.

Textural Discontinuity Hypothesis Workshop. Cedar Key, FL. December 11-12, 2003.

Southeastern NEON Planning Workshop. Savannah River Ecology Laboratory Conference Center, Aiken, SC. October 2003.

National Drinking Water Advisory Council Contaminant Candidate List Classification Process Work Group. 2002-03.

Identifying, Tracking and Understanding the Impacts of Fecal Contamination in North Carolina Coastal Waters. North Carolina National Estuarine Research Reserve. Beaufort, NC. September 2002.

Instructor. Duke University Center for Environmental Education. Environmental Science Institute for High School Science Teachers. July 2002.

University of North Carolina Water Resources Research Institute Technical Advisory Committee. July 1, 2001 – June 30, 2003.

Tar-Pamlico Basin Oversight Committee. Academic Representative. Fall 2001-2002.

Workshop on Development of Site-Specific Nutrient Water Quality Criteria. Water Environment Research Foundation/Cadmus Group. June 18-19, 2001. Durham, NC.

Environmental Protection Agency Gulf of Mexico Estuarine Indicators Review Panel. June 7-8, 2001. Washington, D. C.

Workshop on Ecological/Institutional Interactions in the Rapidly Developing Mid-Atlantic Piedmont Region. April 19-20, 2001. Amicalola Falls, GA.

Workshop on Ecological Organization. National Center for Ecological Analysis and Synthesis. March 1-4, 2001. Santa Barbara, CA.

Research Problems in Freshwater Ecosystems. Cooperative Research Centre for Freshwater Ecology. Invited speaker. December 11-15, 2000. Monash University. Melbourne, Australia.

Environmental Protection Agency National Aquatic Ecosystem Classification and Reference Conditions Review Panel. July 27-28, 2000. Washington, D. C.

Workshop on Ecological Organization. National Center for Ecological Analysis and Synthesis. Santa Barbara, CA. June 9-13, 2000

National Science Foundation/Environmental Protection Agency Water and Watersheds Review Panel. August 23-25, 1999. Washington, D. C.

Scale Breaks in Organized Systems Workshop. Sponsored by the Resilience Network. Cedar Key, FL. February 18-20, 1999.

Neuse River Modeling and Monitoring. Sponsored by the NC Water Resources Research Institute. Raleigh, NC. November 12, 1997.

Workshop on Yellow Perch Dynamics. Sponsored by the Cornell Biological Field Station. May 3-4 1997.

PCBs, the New Equilibrium? Workshop of the Great Lakes Science Advisory Board's Workgroup on Parties Implementation. Sponsored by the International Joint Commission. September 10, 1996. Windsor, Ontario.

Ecological Resource Monitoring: Change and Trend Detection. Invited speaker. Sponsored by the American Statistical Association, the Ecological Society of America and the Environmental Protection Agency. May 1-3 1996. Laurel, Maryland.

National Science Foundation/Environmental Protection Agency Water and Watersheds Review Panel. July 15-17 1996. Washington, D. C.

### **Manuscript and Grant Reviews**

*Agriculture, Ecosystems & Environment, Biology Letters, Biometrics, Canadian Journal of Fisheries and Aquatic Sciences, Conservation Ecology, Ecological Applications, Ecology, Ecosystems, Environmental Engineering Science, Environmental Management, Environmental Monitoring and Assessment, Environmental Science & Technology, Environmental Technology, Environmental Toxicology and Chemistry, Estuaries, Global Biogeochemical Cycles Frontiers of Environmental Science and Engineering in China, Hudson River Foundation, Human and Ecological Risk Assessment, Journal of Agricultural and Food Chemistry, Journal of Environmental Engineering, Journal of Environmental Management, Journal of Environmental Quality, Journal of Great Lakes Research, Journal of the American Water Resources Association, Journal of Marine Systems, Journal of Stochastic Environmental Research and Risk Analysis, Lake and Reservoir Management, Limnology & Oceanography, Marine and Freshwater Research, National Science Foundation, NC Sea Grant, NC Water Resources Research Institute, National Oceanic and Atmospheric Administration, Oecologia, Proceedings of the National Academy of Science, Regulatory Toxicology and Pharmacology, Risk Analysis, San Francisco Estuary & Watershed Science, Sigma Delta Epsilon-Graduate Women in Science, Stochastic Environmental Research and Risk Assessment, Transactions of the American Fisheries Society, Tree Physiology, US Environmental Protection Agency, USGS Maine Water Resources Institute, Water Management, Water Research, Wetlands, Wetlands Ecology and Management.*

### **Grants**

Decision Support Model Development for Western Lake Erie Phosphorus concentrations to mitigate Harmful and Nuisance Algal Blooms, Great Lakes Restoration Initiative. \$200,000. PI.

Lake Huron Coring, USEPA Great Lakes National Program Office, \$60,000. PI.

The Effects and Impacts of Hypoxia on Production Potential of Ecologically and Commercially Important Living Resources in the Northern Gulf of Mexico, NOAA Center for Sponsored Coastal Ocean Research, \$ 1,464,820, with eight co-Pis.

Adaptive Integrated Framework (AIF): a new methodology for managing impacts of multiple stressors in coastal ecosystems, NOAA Center for Sponsored Coastal Ocean Research, \$3,760,000, with 20 co-PIs.

Water Quality Indicators: Nutrient Impacts on Chlorophyll or Algae Species Composition, Water Environment Research Foundation, \$250,000, with K.H. Reckhow, S. McBride, C.J. Richardson, R.G. Wetzel, H. Paerl, R. Gosnell.

Adaptive Implementation and Monitoring Plan for TMDL Refinement, US EPA, \$660,171, with K.H. Reckhow, L.A. Shabman, C. Roessler, G. McMahon, M.E. Borsuk.

Bayesian Methods for Regional Scale Stressor Response Models, US EPA, \$381,396, with E.C. Lamon. Development of fecal coliform TMDLs using Bayesian modeling and novel molecular monitoring techniques, US EPA, \$560,000, with K.H. Reckhow, N. White, R. Nobel.

Comparative Analysis and SPARROW Watershed Modeling of Charlotte's Stormwater Monitoring Network. City of Charlotte, NC Stormwater Services Department. \$23,688, with J. Bowen.

Interrelationships of Water Quality Characteristics in the Neuse River Basin North Carolina Water Resources Institute. \$8,831.

An Erosion and sedimentation study of Lake Jeanette and the Lake Jeanette Watershed, Greensboro, NC. North Carolina Water Resources Institute. \$39,765.

Analysis of ambient monitoring data in the Neuse River basin. North Carolina Water Resources Institute. \$17,754.
